MICROPISTS AT WORK

NEW ENTHUSIASTS

ADDED TO ROLLS

on November 19---General Invitation Extended to

Those Interested.

A' preliminary meeting of the Hawa iian Microscopical Society was held at Dr. Sloggett's office last evening. The object of the meeting was to arrange for a series of regular meetings in the for a series of regular meetings in the future. The membership of the society has lately been increased by F. Grim-wood, for many years a member of the San Francisco Microscopical Society, and Dudley L. Wadsworth, lately from Denver, Colo., who has had much experience in microscopical work relat-

ing to natural history.

After a general talk over the work done by the local society since its or-ganization two years ago, it was decided to hold regular monthly meetings in the future, the first of which will be teld at Dr. Sloggett's office on November 19, beginning promptly at 8 p. m. The program for the evening will be an exhibition of slides in general microscopy by the members and the adoption of a constitution and by-laws referred to committee at the last reguar meeting of the society. All mem bers of the society and others inter ested in microscopical work are invited to be present.

The teachers, both men and women, are unanimous in declar ing that the scholars who use alcohol are the worst in the schools. A head teacher in Rhenish Prussia had under his supervision eleven children, the offspring of notorious drinkers, and they were all in the division for weak-H. Hackfeid & Co., Ltd. minded scholars. In Thuringia, Baden and elsewhere there are districts where the school children have a drink of schnapps every morning. Prof. Hahnel's investigations prove that the girls are more addicted to alcohol than are the boys, or at least confess that they like it better.
